

On the Move

George West **President**

H2O Applied Technologies
(Boston)

| SPOTLIGHT |

First job: Sales engineer, Johnson Controls Inc., Moline, Ill.

Previous job: VP and business unit head for the Security Solutions Business Unit of Siemens Building Technologies Inc.

Professional achievement: "I am most proud of the teams and individuals that I have helped achieve their goals, whether it was meeting sales quotas, improving customer service, or personal career development."

Professional priority: "To help the H2O team expand the number of customers that we help reduce their water and energy consumption. The H2O Applied Technologies team has world-class expertise in this area and is uniquely positioned to help our customers simultaneously reduce their operating costs and their consumption of our increasingly limited natural resources."
